How To Be A Network Engineer In A Programmable Age

Wondering what a data serialization format is? Need to know how serialization and deserialization works? Find out in this quick primer on data serialization formats!

Data formats

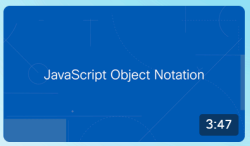

What Is Data Serialization Format?

Wondering what a data serialization format is? Need to know how serialization and deserialization works? Find out in this quick primer on data serialization formats!

What Is XML?

What is XML? Where is XML used? Watch this beginner-friendly video, complete with examples to find out!

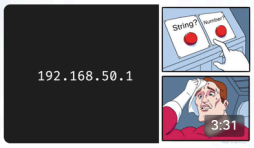

What Is JSON?

What is JSON? What does JSON do? Where is JSON used? How does JSON compare to XML? Watch this beginner-friendly video, complete with examples to find out!

What Is YAML?

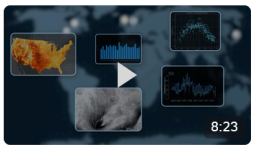

What is YAML? Where is YAML used? What does YAML do? Watch this beginner-friendly video, complete with examples to find out!

Comparing XML JSON And YAML

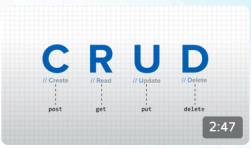

What's the difference between XML, JSON, and YAML? Which data serialization format should you choose? Get a quick answer in this video.

APIs

How Do APIs Work?

What is an API? How does an API work? All this and more in this egg-cliting, beginner-friendly explainer on APIs!

API's In The Wild

Where can you see APIs in the real world? How do they map to other concepts, like CRUD, SNMP, or RPC? Find out in this quick explainer!

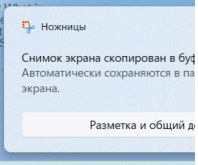

What Are NETCONF And RESTCONF?

What is NETCONF used for? RESTCONF used for? Are the network engineers? Find out primer on NETCONF and RES

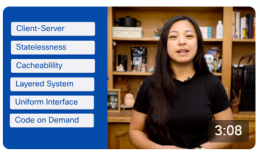

REST APIs

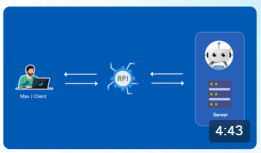

REST APIs

What Is A REST API?

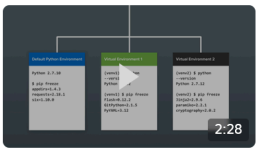

What is a REST API? What's the difference with a RESTful API? What does REST stand for? This video answers these questions and a bit more!

How Does A REST API Work?

Need to understand how a REST API works? Want a visual explanation of what a REST API does? You've come to the right place! Check out this quick, beginner-friendly explainer of how a REST API works.

Tools and programming languages

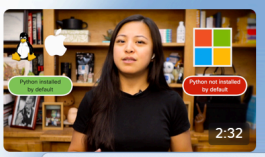

Should I Choose Python?

Wondering if Python is the right choice? Curious why Python might be the best choice for your learning path? Check out this quick primer to see if Python is the right programming language you should be learning!

What Are Python Libraries?

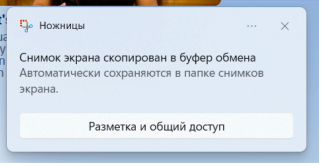

Need to know what a Python library is? Want an explanation with an example? You've come to the right place! Check out this quick primer on what a Python library is.

Step 3: Explore the Sandbox page.
One of the greatest things about DevNet is the Sandbox. This is a place where you can run your code against
real equipment! There are virtualized environments, simulators, and real hardware available for free! Some
labs are always running while others require a reservation.

Вопрос 1: Какой тип Sandbox предоставляет частный доступ к подготовленным лабораторным работам?

Ответ: Резервируемая песочница (Reservation Sandbox).

Вопрос 2: Куда можно обратиться за помощью, если возникли трудности или есть вопросы о Sandbox?

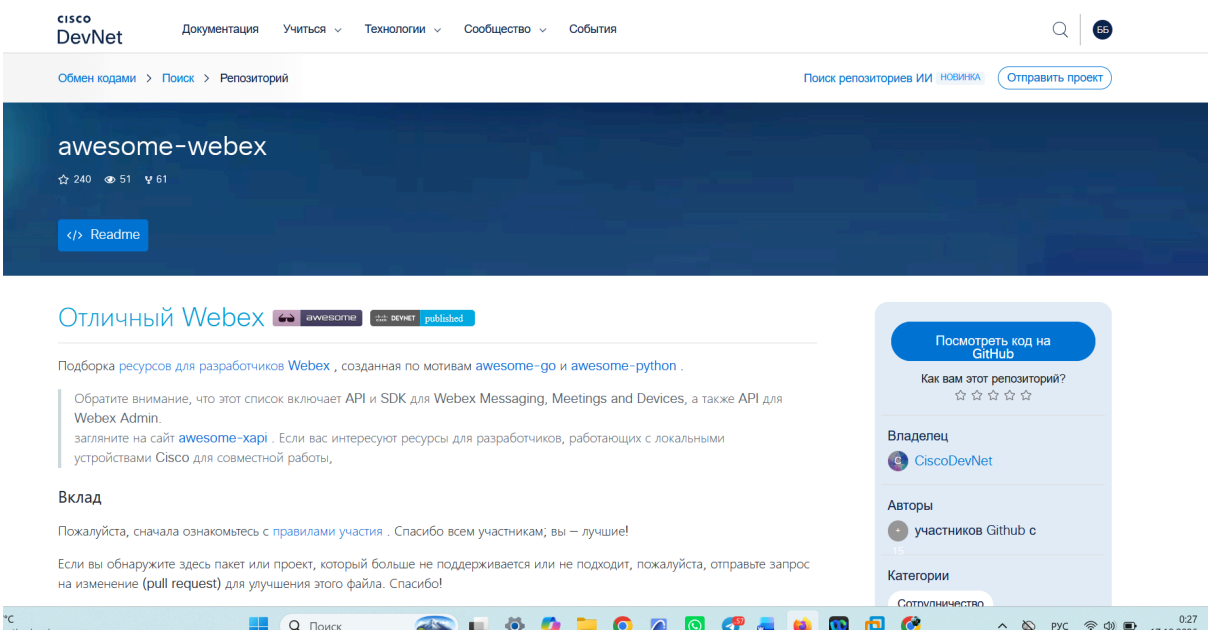

Ответ: На форум сообщества DevNet Sandbox (DevNet Sandbox Community Forum).

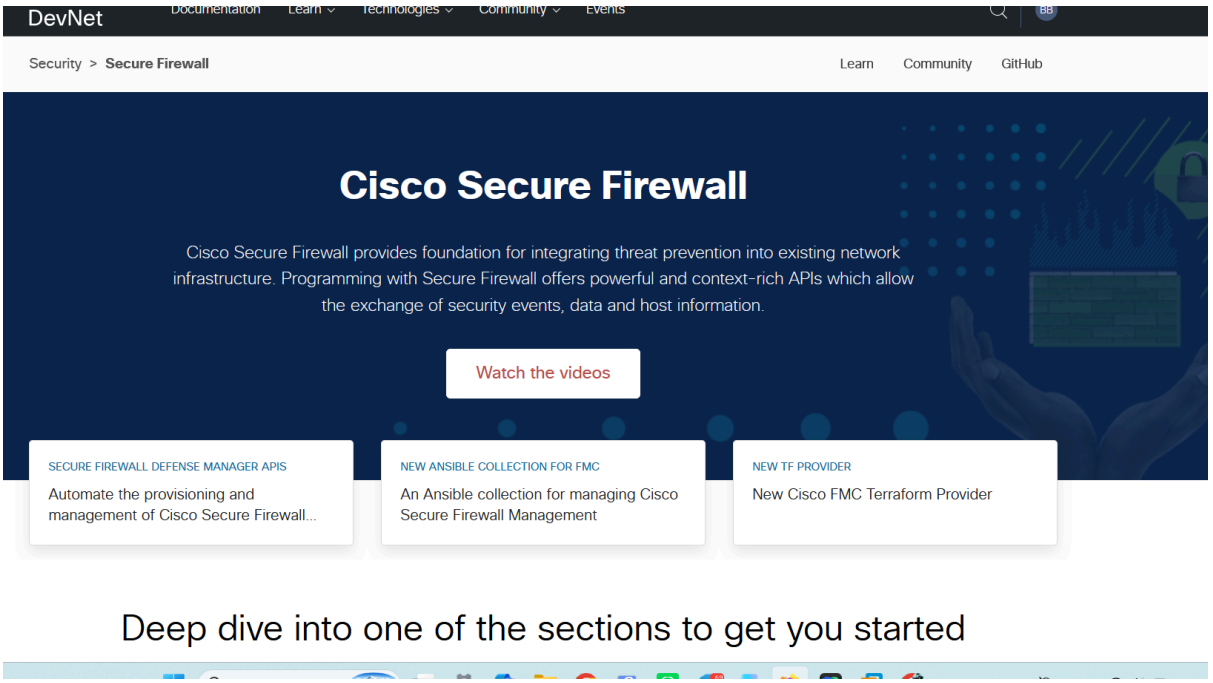

Featured Sandboxes

What is the name of the project? — Awesome Webex.
What category(-ies) does the project fall under? — Collaboration.
What support options does this project provide? — Webex Developer Support Community (24/7)

step 5

Which category did you choose? — Security.
What platform did you explore? — https://developer.cisco.com/secure-firewall/
